

# STEM ACTIVITY OF THE WEEK

## Hudson River Fish Wish Card Game: Make a Fish Wish!

Have an adult help cut out all of the Hudson River fish cards. Mix up the cards and spread them out on the table, face down. Turn one card over, then make a “fish wish” and try to flip over the card that matches it. If you don’t flip over the matching fish, it’s the next player’s turn. If you find the matching fish card, you go again until you don’t get a match. Good luck!
