**GET TO KNOW US**

Parks are vital to healthy, sustainable cities, and every day Hudson River Park brings together urban dwellers who seek reprieve, nature and recreation in the heart of Manhattan.

Hudson River Park (HRPK) has led the way in waterfront revitalization in NYC. From 1998 to today, the Park’s 550 acres of upland, recreational piers and protected waters provide millions of New Yorkers and visitors from around the world with a new and profound connection to the Hudson River and its wildlife.

As the largest park project in Manhattan since the creation of Central Park, HRPK runs along four (4) miles from Chambers St. to W 59 St., connecting 7 vibrant neighborhoods: **Tribeca, Greenwich Village, Meatpacking District, Chelsea, Hudson Yards, Hell’s Kitchen** and **Clinton**. With the recent openings of Pier 26, Little Island at Pier 55 and Pier 76, HRPK is bringing increased ecological, recreational and economic benefits to the entire city. What’s more, during the next two years, HRPK will see unprecedented growth in green open space with construction underway at Pier 57, Chelsea Waterside Park, Pier 97 and Gansevoort Peninsula.

HRPK is NOT a city park and relies on private revenue and sponsorship for its daily maintenance, operations and programming. Our Sustainability Partner would support the Park’s free environmental education programs and help us expand our sustainability initiatives that are included in this deck, like **Park Over Plastic** and our **Community Compost Program**.

“*And as New Yorkers took heroic measures to keep their neighbors safe, outdoor spaces like Hudson River Park became even more important for mental health breaks and rediscovering time with family. Everybody deserves access to open space, whether you live in a rural area or in the heart of New York City.*”

– Governor Kathy Hochul
SUSTAINABILITY IN HRPK

Protecting Hudson River Park’s 400-acre Estuarine Sanctuary and its 85+ species of fish inform virtually every aspect of Park planning and programming. We support these protected waters with a dynamic preservation plan to enhance the Park’s aquatic habitat.

Through environmental topics such as climate change, community composting, water pollution and coastline resiliency, students and adults of all ages are invited to experience the Hudson River as a living laboratory. Ongoing research projects include oyster restoration, fish ecology, water quality, plastic pollution and environmental DNA.

Our unique programs and events build community and promote sustainable practices and stewardship of the Hudson River and local wildlife.

Becoming a Sustainability Partner will help us:

Provide accessible science education for NYC students

Connect communities through green practices

Keep HRPK a clean, green and growing four (4) mile recreational oasis

BECOME OUR SUSTAINABILITY PARTNER

Why? Because together we can do so much more. As our partner, you will help fuel our community education and sustainability initiatives while receiving exciting opportunities for brand exposure and employee engagement through customized experiences.

Support
Plastic reduction, cleaner waters & free environmental programs to enliven the city

Educate
With hands-on NYC school curriculum & broader Park visitor programs

Participate
In exciting employee sustainability initiatives

Promote
Your brand in a meaningful way
In 2019, the Park announced a major plastic reduction program, Park Over Plastic. This initiative brings together community, Park staff and vendors to help preserve the long-term health of the Hudson River and local wildlife.

Join HRPK in this journey; we can do better. #singleuseless

Making remarkable strides in reducing plastic pollution by:

**INSTALLING**
Drinking fountains with bottle fillers and additional recycling stations

**DISCONTINUING**
The distribution of single-use water bottles at Park events

**ENGAGING**
Park vendors as green partners in changing plastic consumption behaviors

**REDUCING**
Single-use products and packaging among Park vendors

**EDUCATING**
Through public programs, school field trips and volunteer shoreline cleanups
EDUCATION & COMMUNITY ENGAGEMENT

HRPK’s River Project is leading New York in marine science outreach to the next generation of sustainability enthusiasts. Partnerships with local organizations aim to fill gaps in STEM by offering workshops rooted in science, wildlife and engineering.

HRPK offers over 200 free and low cost environmental education programs to NYC schools and the public. Our programs are annually attended by 36,000+ participants of all ages with the majority coming from under-resourced communities.

Our fun-filled enrichment opportunities include:

**RIVER RESEARCH**
- Oyster Health
- Plastic Pollution
- Environmental DNA
- Marine Debris
- Pathogens
- Water Quality

**FIELD TRIPS & SUMMER CAMPS**
- Fish Biology
- Oyster Field Lab
- Garden Adventures
- Pollution Solutions
- Plankton Ecology
- Climate & Our Coast
- Shoreline Ecology
- Community Conversations

**EXPANDING REACH AND PARTICIPATION**
- Wetlab at Pier 40
- STEM internships
- SUBMERGE Marine Science Festival
- Meet the Fishes
- Release of the Fishes
- Pumpkin Smash
- Hudson River Tours
- Live from the Field

“The educators were engaging, organized, and very knowledgeable... It was by far the best field trip experience I have had with students”
– 7th Grade Teacher, Manhattan

“Hudson River Park has been an invaluable asset to our curriculum”
– Claudia Rico, Gotham Professional Arts Academy
New York’s largest marine science festival celebrates NYC’s coastal waters and brings marine science to life. This day of interactive science & sustainability aims to inspire audiences of all ages and make marine science and STEM accessible and engaging for everyone.

**DATE:** October 14–15  
**LOCATION:** Pier 84  
**ATTENDANCE:** 6,000+

Meet the Fishes and Release of the Fishes are free events that invite visitors of all ages to experience the wildlife of the Hudson River up-close. Meet the Fishes is the kickoff event for Hudson River Park’s Pier 40 Wetlab season. Release of the Fishes marks the closing of the lab for the year and attendees can choose a fish from the aquarium and accompany it as it is released into the River by staff.

**DATE:** June 2 & October 27  
**LOCATION:** Pier 40 Wetlab at W Houston St.  
**ATTENDANCE:** 500+
ENVIRONMENTAL STEWARDSHIP

HRPK’s Community Compost Program focuses on connecting communities through green practices and Park sustainability. As the Sustainability Partner of the HRPK Community Compost Program, your brand would be recognized for helping to divert organic waste from landfills, reducing our carbon footprint and contributing to a greener NYC.

Ten DESIGNATED Drop-off locations throughout the Park’s four-mile footprint

Invaluable RESOURCE For the community and a benefit for our shared environment

140,000 lbs. FOOD SCRAPs Collected in 2021

490,000 lbs. TOTAL Organic + horticulture waste composted in 2021

COMMUNITY COMPOST PUMPKIN SMASH

Pumpkin Smash 2021 brought together nearly 300 sustainability enthusiasts to squash more than 1,100 pounds of pumpkins! These pumpkins will become nutrient-rich compost for the Park’s plant beds, helping us grow a greener HRPK.

DATE: November 5
LOCATION: Pier 84 at W 44 St.
ATTENDANCE: 300
ACTIVATION HOURS: 11:00 AM–2:00 PM
PARTNERSHIP BENEFITS

HRPK’s Corporate Membership Program helps keep the Park clean, green and growing! Corporate support is essential to our mission at Hudson River Park of providing a world class waterfront Park for the enjoyment of New Yorkers and visitors alike. By partnering with us, your company showcases its commitment to the community and contributes to the realization of the largest open space project in Manhattan since the creation of Central Park.

HRPK Volunteer Days are the perfect way for employees to bond and enjoy a fun, active day of giving back! Employees have the opportunity to engage in on-site volunteer projects like gardening, composting, coastal cleanups and oyster restoration and/or remote volunteer projects like curriculum translation, data tabulation, skills based consulting & more.

Team Building for community impact strengthens relationships while ensuring that one of NYC’s largest parks remains clean, beautiful and safe.

...A commitment to building urban communities and contribute to the nearing completion of the remaining 25% of this essential NYC resource
PARTNERSHIP BENEFITS

Our Park Community and visitors from around the globe rely on key promotional materials like our Summer of Fun calendars, program guides and Park maps for the who, what, when and where.

Sustainability Partners may receive prime logo placement and/or messaging opportunities to reach Park patrons, including those visiting the many popular businesses in the Park, such as Circle Line, Intrepid Sea, Air & Space Museum and Chelsea Piers.

15,000 EVENT CALENDARS
20,000 PARK MAPS
25,000 EVENT POSTCARDS
4,000 PROGRAM GUIDES
1,000–5,000 WATER BOTTLES
1,000 TOTE BAGS
PARTNERSHIP BENEFITS

With Park-wide signage opportunities, your brand will be in high-traffic areas and at Park events and programs through various branding options:

**Light pole banners**

With vivid colors and eye-catching positioning, Park banners will attract passer-by attention and keep your company in mind.

**Hydration stations & recycling bins**

Portable hydration stations throughout the Park encourage people to bring their own water bottles. Plus, we’ve added more recycling bins to accommodate the shift away from non-recyclable products. Prime placement of logo and/or messaging available on these resources.

**Welcome signs**

Our (42) welcome signs do more than greet Park goers. They provide visual consistency as well as information about the Park’s diverse locations and features.
PARTNERSHIP SUMMARY

Sponsorship Benefits – applicable to each event program and investment

**Sponsorship Benefits & Opportunities**

**Sponsor Recognition**
- Signage at participating events
- Brand category exclusivity
- Dedicated website & social media integration
- Brand integration across events
- Opportunities for custom programming with HRPK
- Customized event recognition opportunities

**Activation Space**
- Physical activation space at participating events

**Your Logo**
- Brand logo inclusion in HRPK campaigns
- Brand logo on HRPK promotional materials and in-Park signage
- Sponsor designation in event names

**Entry Level Corporate Membership**

**Volunteer Day**
- One (1) Volunteer Day Experience for up to 25 participants either in-Park or virtually
- Digital Photo Album capturing Volunteer Day highlights

**Seedling Level Membership**
- Complimentary Seedling Level Membership for all participating company volunteers

**Recognition**
- Brand recognition on digital channels social media, HRPK website and donor materials
OUR WEST SIDE STORY

The Original New Yorkers
Before New York, before New Amsterdam—there was Lenapehoking, the land of the Lenape, the original inhabitants. The Lenape people farm tobacco and conduct trade along the lower Hudson River.

All Aboard!
Some of the world’s most celebrated ships—the Lusitania, Carpathia, and the Normandie—came and went from piers in Chelsea and Hell’s Kitchen, transporting soldiers, celebrities, immigrants and more to and from Europe.

A Catchy Tale
New York State and New York City halt plans for Westway due to political pressure and community concerns, including impacts to juvenile striped bass. The State and City begin discussing alternative solutions for Manhattan’s West Side waterfront and piers.

20 Years Young
Hudson River Park celebrates its 20th Anniversary, attracting 20 million visits each year. With the Park nearing completion, HRPK offers over 400 cultural, educational and family programs annually. HRPK’s Estuary Lab conducts original research on oyster restoration and microplastics.

There’s More to This Story
With the recent openings of Pier 26, Little Island at Pier 55 and Pier 76 and construction underway at Gansevoort Peninsula, Pier 57, Chelsea Waterside Park and Pier 97 – HRPK continues to see unprecedented growth in green open space.

Pre-European Contact

19th Century

Canal Era
Hudson River waterfront transforms into one of the world’s busiest working waterfronts due in part to the opening of the Erie Canal and the advent of the steamship. Oyster barges proliferate along the shoreline and oyster carts are as plentiful as current day hot dog stands.

Early 20th Century

1973

West Side Highway Collapses
A section of the elevated West Side Highway collapses, bringing attention to NYC’s deteriorated infrastructure and leading to plans for a never-built project called “Westway” that would have filled in a portion of the Hudson River to create an underground interstate highway.

1985

A Park is Born
The Hudson River Park Act is signed into law—designating approximately 150 acres of land and piers and 400 acres of water as a major, new park and Estuarine Sanctuary—happy news for New Yorkers and the 85+ species of fish in HRPK.

1998

#singleuseless
HRPK launches Park Over Plastic, a multi-year initiative to rid the Park of single-use plastics.

2018

The River Project Merger
A pioneer in river research and educational programming, The River Project, merges with HRPK making the Pier 40 Wetlab an integrated part of HRPK’s wildlife education.
