

**Parkwide Pest Inspection,
Monitoring & Extermination
Services
Request for Proposal (RFP)
Contract #M5169
Questions & Answers
February 10, 2020**

PLEASE NOTE: **Questions** are presented below in **bold**, with *answers* from the Trust in *italic*.
Similar questions are answered only once.

- 1.) **Is there enough in the budget to change all exterior rat stations to stations that are properly anchored and weighed?**

It would depend on the cost of the additional bait stations. However, the Trust plans to correct all deficiencies required throughout the park.

- 2.) **With the old contract were you charged extra to bait the stations that were needed? (Trying to figure out how they charged so little).**

Yes. There was an additional charge for the bait station.

- 3.) **If treatment is done at night is there a specific day or we can do it any day of the week?**

Treatment can be done any day Monday to Friday preferable after 6:00pm up to 11:00pm. HRPT staff are here until 11pm and park opens at 6am. HRPT would not allow service after 11pm.
